vigneskumarraj@gmail.com
<https://github.com/Vignes07>

PROFILE

- Implemented responsive and visually appealing user interfaces using **HTML**, **CSS**, **Material-UI**, and **Javascript** ensuring a seamless user experience across different devices and browsers.
- Experience in Front-end UI and Component Frameworks **Bootstrap** and **Material UI**.
- Developed web applications using **React.js** and **Node.js**, ensuring seamless user experience and efficient data management with **MongoDB**.
- Experience in **GIT** code management tool and Defect management tool like **Jira**.
- Having Good Knowledge in Package Management Tool **NPM**.
- Well-versed with all stages of **Software Development Life Cycle (SDLC)**.

EMPLOYMENT HISTORY

Aug 2022 - Jun 2023	React Developer Intern, Piktorlabs	Bengaluru
Jul 2022 - Dec 2023	Associate Software Tester, UST Global	Bengaluru

EDUCATION

Aug 2019 - Apr 2023	B-Tech Information Technology, Karpagam College of Engineering	Coimbatore
---------------------	---	------------

PROJECTS

Jan 2023 - May 2023

T-Mobile

Accomplishments:

- Had the opportunity to dive into the world of web development, focusing on React.js, a popular and powerful JavaScript library for building user interfaces.
- Actively contributed to the development of various projects, gaining valuable hands-on experience in the following key areas:
- Developing dynamic and interactive user interfaces using React.js. This included crafting components, managing state, and implementing responsive designs to enhance user experiences.
- State management by working with Redux, ensuring data flow and consistency throughout the applications. This experience equipped me with a solid foundation in managing complex application states.

Aug 2023 - Sep 2023

UST Healthproof

Accomplishments:

- Played a pivotal role in ensuring the reliability and functionality of web applications through automated testing.
 - Responsibilities encompassed test script development, test execution, defect identification, and continuous improvement of the testing process.
 - Utilizing its automation capabilities to create, enhance, and maintain test scripts. These scripts covered various testing types, including functional, regression, and integration testing.
 - Java programming skills were central to developing robust and maintainable Selenium test scripts. I leveraged Java to handle test data, perform actions on web elements, and implement complex test scenarios.
 - Designing and implementing test automation frameworks using Java and Selenium. These frameworks promoted code reusability, modularity, and test suite scalability.
-

SKILLS

Programming Languages

- Javascript
- Java
- HTML
- CSS
- SQL

Frameworks & Libraries

- React JS
- Node JS
- Redux
- Bootstrap
- Material UI

Tools & Platforms

- Git
 - Github
 - Render
 - Visual Studio Code
 - Figma
-

PORTFOLIO

Academic Project

Canvas Clock

- A Simple canvas clock which shows time in a stylish way.
- Using HTML/CSS, Javascript

Academic Project

URL Shortener

- A simple URL shortener which used to short long URLs and store in a database.
- Using HTML/CSS, Java, Servlet, MySQL

Academic Project

Chat Application

- A chat application that lets you chat and send images to your friends and groups.
- Using Flutter, FireBase, CloudStore, Stream API.

Personal Project

Todo List

- A Todo list web app that lets you create tasks and stores it in local browser.
- Using React JS, Bootstrap.

Personl Project

Notes

- Notes app in web that lets you to take notes and uses browser as local storage.
 - Using ReactJS, Bootstrap, Redux.
-

CERTIFICATIONS

CADDESK

Core Java

This certification program provided comprehensive training in Core Java programming, covering topics such as object-oriented programming principles, and data structures.

MVN Evolution

Web Development using Java

This certification program provided comprehensive training in Web Development using Java, covering topics such as Servlet , connecting Web pages to Database using Servlet and RDBMS Databse like MySQL.

LANGUAGES

English
